

Data Technician Week 2 Workbook Tableau and Power BI

Name:

Course Date:

Table of contents

Day 2: Task 1	3
Day 2: Task 2 (If completed Day 2 Task 1 Early)	6
Day 3: Task 1 (Optional)	9
Day 3: Task 2 (Optional)	10
Day 4: Task 1	11
Day 4: Task 2	17
Day 4: Task 3 (If completed Task 2 early)	20
Course Notes	21
Additional Resources to learn and Practice	21

Day 3: Task 1 (Optional)

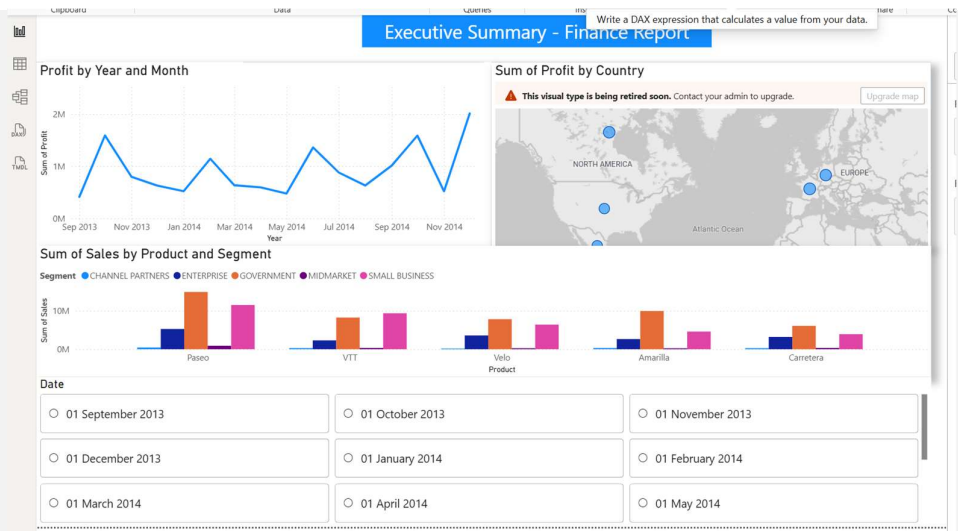

Please complete [Tutorial: From Excel workbook to stunning report in Power BI Desktop - Power BI | Microsoft Learn](#).

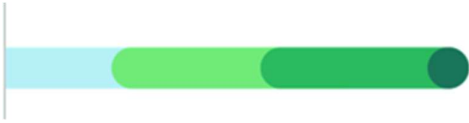

Once complete, publish your report in Power BI service and paste a print screen below and in the collaboration board.

You can also watch this video [how to publish and share power bi report.webm](#). and share with your trainer.

“Teaching is the best way to learn, so please listen out for support requests from the class and we’ll work through the challenges together”

Paste your
completed
lab here

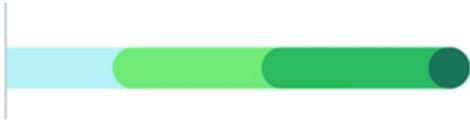

Day 3: Task 2 (Optional)

Please complete [Tutorial: Combine data from Excel and an OData feed in Power BI Desktop - Power BI | Microsoft Learn.](#)

Once complete, publish your report in Power BI service and paste a print screen below and share with your trainer.

You can also watch this video [how to publish and share power bi report.webm.](#)

**Paste your
completed
lab here**

Day 4: Task 1

Please complete **Lab 2 'Clean, transform, and load data in Power BI'** on Skillable. Once complete, paste a print screen below and in the collaboration board.

- 1) Visit <https://leeptalent.learnondemand.net/>
- 2) Sign into your profile
- 3) Find PL-300T00-A Design and Manage Analytics Solutions Using Power BI
- 4) Launch and complete **Lab 2 'Clean, transform, and load data in Power BI'**.

"Teaching is the best way to learn, so please listen out for support requests from the class and we'll work through the challenges together"

Day 4: Task 2

Please complete **Lab 8 'Design Power BI reports'** on Skillable. Once complete, paste a print screen below and in the collaboration board.

- 1) Visit <https://leaptalent.learnondemand.net/>
- 2) Sign into your profile
- 3) Find PL-300T00-A Design and Manage Analytics Solutions Using Power BI
- 4) Launch and complete **Lab 8 'Design Power BI reports'**.

"Teaching is the best way to learn, so please listen out for support requests from the class and we'll work through the challenges together"

The last one isn't quite right. Not sure why the target is not showing. was running out of time. Had another go at it and it is correct now.
